

РУП «Белпочта» удостоено серебряной медали

С 2008 года Всемирный почтовый союз и Международная федерация филателии проводят международные конкурсные классы для выпускающих марки почтовых организаций стран – членов ВПС и их территорий. Почтовые миниатюры демонстрируются на крупных международных и всемирных филателистических выставках, оценивает экспонаты жюри, состоящее из членов Международного бюро и экспертов, имеющих специальную квалификацию для выполнения этой задачи. Данное мероприятие является прекрасной возможностью познакомить зарубежных коллекционеров с белорусской филателистической продукцией.

В целях продвижения белорусской филателистической продукции на международном рынке РУП «Белпочта» приняло участие в 20-ом международном классе. Для участия в международном конкурсе было представлена в ВПС тематическая экспозиция «From Belarus with love», в которой представлена почтовая продукция, введенная в почтовое обращение с 2021-го по 2024 год.

Экспозиция РУП «Белпочта» на протяжении 2025 года приняла участие в международных филателистических выставках:

- URUGUAY 2025 (Пунта-дель-Эсте, Уругвай, 17-22.02.2025 г.);
- BERNABA 2025 (Берн, Швейцария, 14-17.05.2025 г.);
- GASS 2025 (Чикаго, США, 14-17.08.2025 г.);
- PHILAKOREA 2025 (Сеул, Республика Корея, 29.08-02.09.2025 г.);
- UAE (Дубай, ОАЭ, 15-19.10.2025 г.).

По решению международного жюри в группе В конкурсантов класса (страны, выпускающие от 30 до 69 почтовых марок в год) белорусской экспозиции присуждена серебряная медаль.

Эта награда является ярким свидетельством высокого качества белорусской почтовой продукции и профессионализма сотрудников РУП «Белпочта».

Официальный рейтинг группы «В» конкурсантов класса:

- 1 место – Макао, КНР;
- 2 место – Беларусь; Бразилия
- 3 место – Сан-Марино, Тунис

In 1664, the icon was transferred to the wooden Jesuit Catholic Church of Peter and Paul, since that time Our Lady of the Icons became the protector of the Mariin congregation in Grodno, and her icon began to be called the Congregation or Student icon. In 1686, the icon was recognized as miraculous, and in 1705 it was installed in the student chapel of the newly built catholic church, where it remains to this day.

Architecture of Belarus. Catholic churches. Archcathedral Catholic Church of the Holy Name of Blessed Virgin Mary in Minsk

Archcathedral Catholic Church of the Name of Blessed Virgin Mary is the main catholic church in Minsk. It is cathedral of the Minsk-Mogilev Archdiocese. The temple was built in 1780-1788 as a church attached to a Jesuit monastery, which is why it is also known as the Jesuit church. In 1795, after Minsk became part of the Russian Empire and the Monk district was founded, it received the status of a cathedral and was named after the Blessed Virgin Mary.

Church of the Nativity of the Blessed Virgin Mary in the village of Mironavka, Grodno region is a defensive-type temple built on an artificial hill, as it is commonly believed, in 1120 and incorporating Gothic and Renaissance features. The patterned stonings, typical of Gothic temples, are unusually artistic in the church. The powerful pillars-columns, dividing the room into three naves, seem to blossom at the top, distinguishing into many branches petals.

Happy Easter!

Saints Boris and Gleb (Malynak) Church is an orthodox shrine of the 12th century.

Features of waterfowl

Waterfowl are able to float on the surface of the water. This is facilitated by pores in their wings, where the fingers are connected by membranes, which help the birds to rise light skeletons - the bones are thin, most of them are filled with air dense plumage which forms a thick layer that can repel water; countless air bubbles enclosed in the plumage layers; preen gland, the secretion of which is unusual in feathers.

National park "Narachanski"

Narach region is known for its natural diversity and special landscape that was formed during the retreat of the Valdai glacier about 15-20 thousand years ago.

National park "Narachanski" was established in 1998. Iversians occupy about a fifth of the park. About 90% of the park's territory is covered with pine forests and birch groves. The flora is distinguished by a variety of mosses, lichens, fungi and algae.

Birds of Belarus. European turtle dove

European turtle dove is a bird with unusual noble past. The ancient Slavs considered the appearance of a pair of turtle doves near their home as a blessing from above and believed in a positive outcome of family problems. Peoplesled the bird ashore to tumult. The first postal messengers from the bird family carried news turtle doves (males), because the females never left their nest alone.
