International Activity

From May 12 to 23, 2025, a meeting of Working Parties (WPs) 5A and 5C of the Radiocommunication Sector of the International Telecommunication Union (ITU-R) is held in Geneva, Switzerland.

Specialists of the state enterprise “BelGIE” take part in the work.

WP 5A considers issues related to research on electromagnetic compatibility of railway radiocommunication systems, broadband wireless access, land mobile communication systems, revision and development of relevant ITU-R Recommendations and Reports.

WP 5C deals with issues of fixed wireless communication systems.
