RANKING OF INDEX FOR POSTAL DEVELOPMENT 2022 OF THE UNIVERSAL POSTAL UNION

Wide postal network of the Republic of Belarus covers all territory of the Republic of Belarus and provides with complete access to postal and other socially-significant services for natural and legal persons by enlarging range and totally accomplishes norms of State social standard on servicing of population approved by Decree of the Council of Ministers of the Republic of Belarus dated May 30, 2003 №724.

Among the innovations and achievements in the field of postal services, implemented recently on the basis of IT technologies, which contribute to improving the quality of life of the population, was the development of a national postal electronic system, expansion of the network of parcel terminals, introduction of the Mobile Postman service, an electronic advance system for legal entities, pre-postal processing of postal items.

One of the main areas of digitalization is the National Postal Electronic System. This is a convenient and fast way to send simple and registered letters in electronic and hybrid form with confirmation of delivery.

The service is available to all business entities and individuals; it guarantees compliance with postal secrecy, security and confidentiality of correspondence.

To forward mail, the user creates an electronic mailbox, which is a digital analogue of a standard mailbox. To receive and read the message, the recipient must log in to the email inbox. Notification of receipt of correspondence will be sent to the phone number or e-mail specified during registration. If the recipient of the mailing is not registered in the system, the national postal operator will automatically print and convert the attachment, and then deliver the mailing to the addressee at the specified postal address.

National Postal Electronic System

A convenient and fast way to send letter post items in electronic and hybrid form with confirmation of the fact of delivery.

ADVANTAGES OF THE SYSTEM:

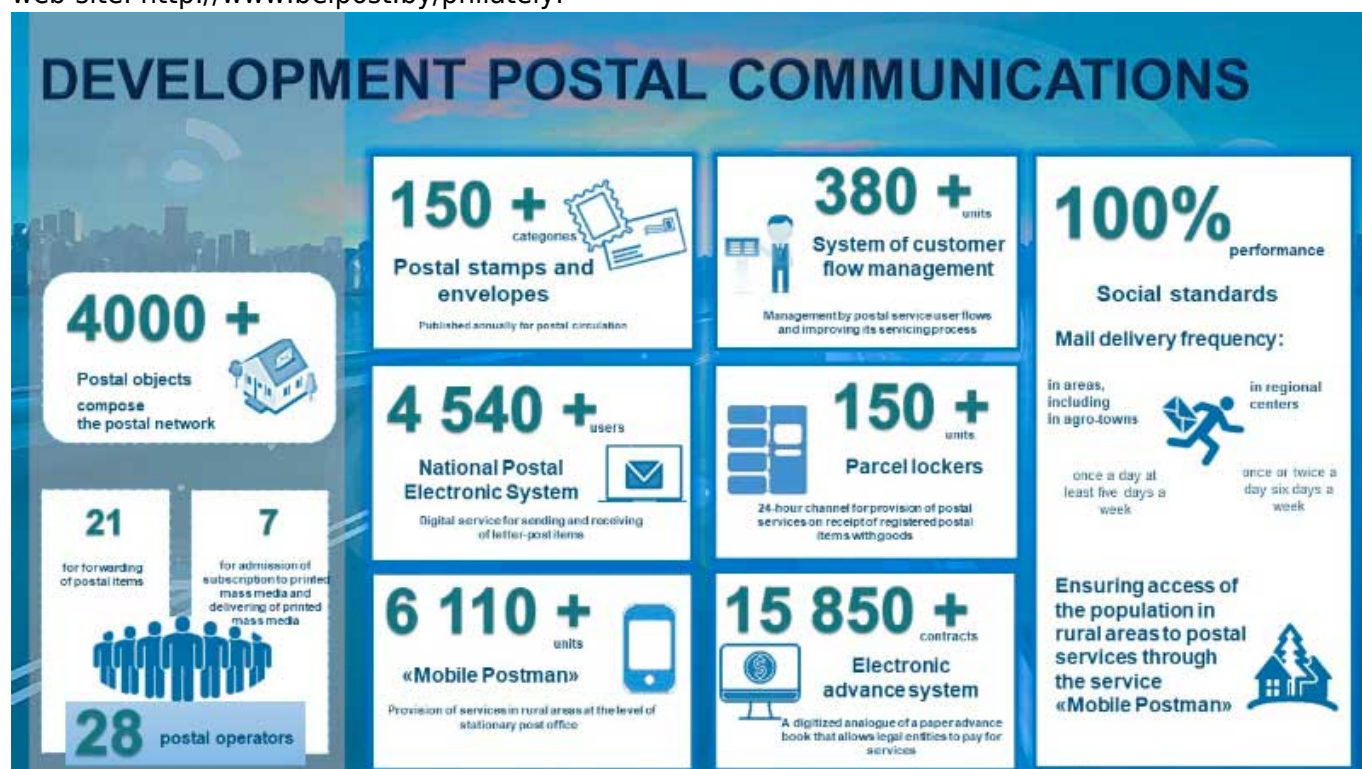

-  available to all legal entities and individuals
-  security and confidentiality of correspondence
-  maintaining of privacy of postal service
-  contactless sending and receiving of letters
-  instant delivery
-  advice of receipt
-  confirmation of the fact of delivery
